--

Description
Splash screen will be visible when Application will be launched

I want to select my preferred language from a list of available options,
So that I can explore the app in a language I'm comfortable with.

Acceptance Criteria:

1. **Given** I open the app for the first time,
When I am directed to the language selection screen,
Then I should see a list of language options including Arabic (العربية), English (English), French (Français), Spanish (Español), and German (Deutsch).
2. **Given** I am on the language selection screen,
When I tap on a language option,
Then the selected language should be highlighted with a green checkmark, and other options should remain unselected.
3. **Given** I have selected a language,
When I tap the "Continue" button,
Then the app should proceed to the next screen, and all app content should be displayed in the selected language.
4. **Given** I am on the language selection screen,
When I tap the back arrow,
Then I should be taken to the previous screen (if applicable).

5. The "Continue" button should be prominently displayed in red at the bottom of the screen and should be tappable only after a language is selected.

I want to see an engaging onboarding screen that introduces the app's value proposition,
So that I can understand the benefits of using the app and proceed to the next step.

Acceptance Criteria:

1. **Given** I open the app for the first time,
When I am directed to the first onboarding screen,
Then I should see a visually appealing background image of a coffee drink with the app logo "R+" displayed prominently at the top.
2. **Given** I am on the first onboarding screen,
When the screen loads,
Then I should see the headline "Offers Made Simple, Rewards Made Better" and the description text "Semper in cursus magna et eu varius nunc adipiscing. Elementum justo, laoreet id sem." below the logo. (Text can be changed as per requirement)
3. **Given** I am on the first onboarding screen,
When I view the screen,
Then I should see a pagination indicator with three dots at the bottom, with the first dot filled in red to indicate the current screen.
4. **Given** I am on the first onboarding screen,
When I tap the "Continue" button,
Then I should be taken to the next onboarding screen (Onboarding #2).

Given I am on the first onboarding screen,

When I tap the "Skip" link,

Then I should skip the onboarding process and be taken to the next page app screen.

The "Continue" button should be prominently displayed in red at the bottom of the screen, with the "Skip" link in smaller text below it.

I want to see a welcome screen that introduces the app and provides login options,
So that I can choose to sign in, sign up, or continue as a guest to access the app.

Acceptance Criteria:

1. **Given** I open the app,
When I am directed to the welcome screen,
Then I should see a background image featuring Formula 1 drivers with a cityscape in the background.
2. **Given** I am on the welcome screen,
When the screen loads,
Then I should see the app logo "R+" at the top and the tagline "Redeem+, Unlock Offers, Anytime, Anywhere" below the background image.
3. **Given** I am on the welcome screen,
When I view the screen,
Then I should see three buttons: "Sign In" in red, "Sign Up" in white, and "Continue as a guest" as a text link in teal.
4. **Given** I am on the welcome screen,
When I tap the "Sign In" button,
Then I should be taken to the sign-in screen.

Given I am on the welcome screen,

When I tap the "Sign Up" button,

Then I should be taken to the sign-up screen.

Given I am on the welcome screen,

When I tap the "Continue as a guest" link,

Then I should be taken to the main app screen without logging in.

Description

I want to sign into my account using my credentials or social login options,
So that I can access the app's features securely.

Acceptance Criteria:

1. **Given** I am on the sign-in screen,
When the screen loads,
Then I should see a "Welcome back!" headline at the top, with fields for "Username" and "Password" below it.
2. **Given** I am on the sign-in screen,
When I view the password field,
Then I should see an eye icon to toggle the visibility of the password.
3. **Given** I am on the sign-in screen,
When I view the screen,
Then I should see a "Forget Password" link in red below the password field.
4. **Given** I am on the sign-in screen,
When I tap the "Sign In" button after entering valid credentials,
Then I should be logged into the app and taken to the main app screen.

Given I am on the sign-in screen,
When I tap the "Forget Password" link,
Then I should be taken to the password recovery screen.

Given I am on the sign-in screen,
When I tap the "Sign Up" link in the "Don't have an account? Sign Up" text,
Then I should be taken to the sign-up screen.

Given I am on the sign-in screen,
When I tap one of the social login buttons (Google, Apple, or Facebook),
Then I should be able to sign in using the selected social account.

Given I am on the sign-in screen,
When I tap the back arrow,
Then I should be taken to the previous screen (welcome screen).
The screen should display a "By signing up you agree to our Terms and Conditions of Use" text at the bottom, with "Terms and Conditions of Use" as a tappable link.

Description

I want to reset my password if I forget it,
So that I can regain access to my account securely.

Acceptance Criteria:

1. Screen 1: Forget Password

- **Given** I am on the sign-in screen,
#**When** I tap the "Forgot Password" link,
#**Then** I should be taken to the "Forgot Password" screen with a field to enter my email and a "Send Code" button.
- The screen should display the text "Forgot Password? Don't worry, it occurs. Please enter the email linked with your account."
- **When** I enter a valid email and tap "Send Code",
#**Then** I should be taken to the OTP verification screen.

2. Screen 2: OTP Verification

- **Given** I am on the OTP verification screen,
#**When** the screen loads,
#**Then** I should see a field to enter a 4-digit verification code with the text "Enter the verification code we just sent to your email".

- There should be a "Resend Code" link with a 15-second timer (displayed as "00:15") and the text "Didn't receive code?".
 - **When** I enter the correct OTP and tap the "Verify" button,
#**Then** I should be taken to the create new password screen.
 - **When** I tap "Resend Code" after the timer expires,
#**Then** a new OTP should be sent to my email, and the timer should reset.
3. **Screen 3: Create New Password**
- **Given** I am on the create new password screen,
#**When** the screen loads,
#**Then** I should see fields for "New Password" and "Confirm Password" with the text "Create new password. Your new password must be unique from those previously used."
 - **When** I enter matching passwords and tap the "Reset Password" button,
#**Then** I should be taken to the password changed confirmation screen.
4. **Screen 4: Password Changed Confirmation**
- **Given** I am on the password changed confirmation screen,
#**When** the screen loads,
#**Then** I should see a green checkmark icon, the text "Password Changed! Your password has been successfully changed", and a "Back to Login" button.
 - **When** I tap the "Back to Login" button,
#**Then** I should be taken back to the sign-in screen.
5. **General**
- Each screen should have a back arrow at the top left to return to the previous screen.

Description

I want to sign up for an account as either an individual or a business,
So that I can access the app's features tailored to my account type.

Acceptance Criteria:

- 1. **General Sign-Up Screen Elements (Both Individual and Business):**
 - a. **Given** I am on the sign-up screen,
When the screen loads,
Then I should see fields for uploading a profile photo, entering a username, email, phone number, selecting an account type, entering a new password, and confirming the password.
 - b. The screen should also include social sign-up options (Google, Apple, Facebook) and a "By signing up you agree to our Terms and Conditions of Use" text with a tappable link.
 - c. **When** I tap the back arrow,
Then I should be taken to the previous screen.
- 2. **Account Type Selection:**

- a. **Given** I am on the sign-up screen,
When I tap the "Select Account Type" dropdown,
Then I should see options for "Individual" and "Business".
- b. **When** I select an account type,
Then the form should update based on the selected type.
- 3. Individual Sign-Up (Screen 1):**
 - a. **Given** I select "Individual" as the account type,
When I fill out the form,
Then I should only see fields for profile photo, username, email, phone, account type, new password, and confirm password.
 - b. **When** I enter a valid username (e.g., "Redeemplus"),
Then a green checkmark should appear next to the username field.
 - c. **When** I tap the "Continue" button after filling all required fields correctly,
Then I should be taken to the next step (e.g., email/phone verification).
- 4. Business Sign-Up (Screen 2):**
 - a. **Given** I select "Business" as the account type,
When I fill out the form,
Then I should see additional fields for business category and business location, along with the fields for profile photo, username, email, phone, account type, new password, and confirm password.
 - b. **When** I tap the "Select your business category" dropdown,
Then I should be able to select a category.
 - i. Business category will be displayed on my profile page.
 - c. **When** I interact with the "Add Business Location" section,
Then I should see a map with a pin at the specified location (e.g., "3235 Royal Ln, Mesa, New Jersey 34567") and fields for street (961), postal code (3033), and zone (400).
 - d. **When** I tap the "Continue" button after filling all required fields correctly,
Then I should be taken to the next step.
- 5. Social Sign-Up Option:**
 - a. **Given** I am on the sign-up screen,
When I tap one of the social sign-up buttons (Google, Apple, or Facebook),
Then I should be able to sign up using the selected social account.
- 6. Sign-In Link:**
 - a. **Given** I am on the sign-up screen,
When I tap the "Do you have an account? Sign in" link,
Then I should be taken to the sign-in screen.

Description

I want to select a business category from a list during the sign-up process,
So that my business account can be associated with the correct category for relevant features and offers.

Acceptance Criteria:

1. **Given** I am on the business sign-up screen and have selected "Business" as my account type,
When I tap the "Select your business category" dropdown,
Then I should be taken to the category selection screen.
2. **Given** I am on the category selection screen,
When the screen loads,
Then I should see a search bar at the top with the placeholder "Search".
3. **Given** I am on the category selection screen,
When I view the screen,
Then I should see a scrollable list of categories.
4. **Given** I am on the category selection screen,
When I tap on a main category (e.g., "Automotive"),

Then the category should expand to show its subcategories (e.g., "Car For Sale", "Auto Parts", etc.).

Given I am on the category selection screen,

When I tap on a subcategory (e.g., "Car For Sale"),

Then the subcategory should be selected, and I should be taken back to the sign-up screen with the selected category displayed in the "Select your business category" field.

Given I am on the category selection screen,

When I use the search bar to search for a category (e.g., typing "Auto"),

Then the list should filter to show only relevant categories and subcategories (e.g., "Automotive" and its subcategories).

Given I am on the category selection screen,

When I tap the back arrow,

Then I should be taken back to the sign-up screen without saving a selection.

Description

I want to verify my email via OTP and select a subscription plan after signing up,
So that I can complete my account creation and access the app's features.

Acceptance Criteria:

1. Screen 1: OTP Verification (Initial Entry)

- **Given** I have completed the sign-up form and submitted my details,
#**When** I am taken to the OTP verification screen,
#**Then** I should see the text "OTP Verification" at the top and "Enter the verification code we just sent on your email address." below it.
- The screen should display four input boxes for entering a 4-digit OTP code.
- There should be a "Didn't receive code? Resend Code" link with a 15-second timer (displayed as "00:15")
- **When** I enter the correct OTP (e.g., "513"),
#**Then** I should be able to tap the "Verify Account" button.
- **When** I tap the "Verify Account" button,
#**Then** I should see a confirmation modal.

2. Screen 2: OTP Verification (Confirmation Modal)

- **Given** I have entered the correct OTP and tapped "Verify Account",
#When the verification is successful,
#Then a modal should appear with the text "Registered Successfully", a green checkmark icon, and the email "Redeemplus@xsl****" (partially masked).
- The modal should also display the text "Your email address has been successfully verified" and a green "Continue To Subscription Plan" button.
- **When** I tap the "Continue To Subscription Plan" button,
#Then I should be taken to the subscription plan selection screen (Screen 3).

3. Screen 3: Subscription Plan Selection

- **Given** I am on the subscription plan selection screen,
#When the screen loads,
#Then I should see the title "Select Subscription Plan" and three plans options
 1. Bronze
 2. Silver
 3. Gold
- Client will provide the details for all plans.
- **When** I tap the "Choose" button on a plan,
#Then my account should be created with the selected plan, and I should be taken to the main app screen.
- **When** I tap the back arrow on any screen,
#Then I should be taken to the previous screen.
- User will have also the skip option if they don't want to select plan. If user tap on skip button, then popup will be asked "The free Bronze membership has been selected by default". User will have the features accessible for free Bronze plan.

4. Plan features and price will be set later on

- **Given** I am on the offer details screen,
#**When** I scroll to the location section,
#**Then** I should see a map with a pin indicating the offer location (e.g., "Haight St") and an "Open Map" link.
- **When** I tap the "Open Map" link,
#**Then** I should be taken to a full map view showing the location.

5. Price and Redeem Button:

- **Given** I am on the offer details screen,
#**When** I view the price section,
#**Then** I should see the discounted price (e.g., "QR 32.50") and the original price (e.g., "QR 63.00").
- There should be a pink "Redeem" button next to the price.
- **When** I tap the "Redeem" button,
#**Then** I should be taken to the redemption process for this offer.

6. Recommended Deals Section:

- **Given** I am on the offer details screen,
#**When** I scroll to the bottom,
#**Then** I should see a "Recommended Deals" section with a smaller offer card (e.g., "48% Discount Nike Free Metcon 6" by Nike Qatar) including:
 - A thumbnail image.
 - Badges (e.g., "100 Left").
 - Provider name and rating (e.g., "Nike Qatar • 4.8").
 - Offer title and details (e.g., "Sustainable Materials Men's Workout Shoes Redeemable in Store Only").
 - Distance (e.g., "3.75KM").
 - Price (e.g., "QR 32.50 QR 63.00").
 - A pink "Redeem" button.
- **When** I tap the recommended offer,
#**Then** I should be taken to its offer details screen.

7. Pagination Dots:

- **Given** I am on the offer details screen,
#**When** I view the recommended deals section,
#**Then** I should see pagination dots indicating multiple recommended offers (e.g., two dots, with the first one filled).

I want to redeem an offer using a PIN code and leave a review for the business,
So that I can complete my transaction and share feedback about my experience.

Acceptance Criteria:

1. Screen 1: Redeem Via PIN Code

- **Given** I am on the offer details screen and tap the "Redeem" button,
#**When** I am taken to the redeem details screen,
#**Then** I should see the offer price (e.g., "32.50 QR"), a quantity selector (default to 1), and options to select a redemption method ("Shop PIN Code" or "Request Delivery").
- The "Shop PIN Code" option should be selected by default, displaying four input boxes for entering a PIN code (e.g., "3862").
- There should be a keypad with numbers, letters, and symbols for entering the PIN code, including a "Done" button.
- **When** I enter a valid PIN code and tap the "Redeem Now" button,
#**Then** I should be taken to the redeem success screen (Screen 2).
- Shop pin code will be provided by the shop owner.

2. Screen 2: Redeem Success

- **Given** I have successfully redeemed the offer,
#**When** I am taken to the redeem success screen,
#**Then** I should see a green checkmark icon, the text "Redeem Successful", a confirmation number (e.g., "ADS 000001"), and a prompt to rate the experience with the text "Please rate us! Iced Spanish Latte" and five empty stars.
- There should be a "Type your review..." text area for entering feedback.
- **When** I tap the stars to rate (e.g., 4 stars) and optionally type a review,
#**Then** my rating and review should be submitted, and I should be taken to the business review screen (Screen 3).
- 3. **Screen 3: Business Review Screen**
 - **Given** I have submitted a review,
#**When** I am taken to the business review screen for "[Aplus.shop](#)",
#**Then** I should see the overall rating (e.g., "4.0") and the rating distribution (e.g., 5 stars: 52 reviews, 4 stars: some reviews, etc.).
 - The screen should display individual reviews with usernames (e.g., "Siah", "Sleef", "Jane Cooper", "Sloof"), star ratings, timestamps (e.g., "2 mins ago"), and review text (e.g., "Consequat velit qui adipiscing sunt do rependerit od laborum tempor ullamco exercitation. Ullamco tempor adipiscing et voluptate duis sit esse aliqua eu").
 - **When** I scroll through the reviews,
#**Then** I should see all reviews associated with the business.
- 4. **Screen 4: No Reviews (Empty State)**
 - **Given** a business has no reviews,
#**When** I am taken to the business review screen for "[Aplus.shop](#)",
#**Then** I should see an empty state with an illustration of a person, the text "No reviews yet", and a subtext "Ullamco tempor adipiscing et voluptate duis sit esse aliqua ex".
- 5. **Navigation:**
 - **Given** I am on any of these screens,
#**When** I tap the back arrow,
#**Then** I should be taken to the previous screen.
 - The bottom navigation bar should remain visible with icons for "Home", "Offers", "Post", "Notification", and "You".

I want to request delivery for an offer and track its status,
So that I can receive the redeemed item at my location and provide feedback after delivery.

#****Then** the status should update to "Delivered" with a timestamp (e.g., "Apr 29 2024 15:43").

I want to confirm or add a delivery location during the redemption process,
So that I can ensure my offers or deliveries are associated with the correct address.

Acceptance Criteria:

- When user tap on back button, he/she will go to previous screen.
- User will have screen title "Confirm Location" on navigation bar
- User will have map view with current location button.
 - When user click on "Current Location" button, user will move to current location pin with blue dot in map view.
 - When user click on "Expand arrow" button, the map view would load to full screen.
- User can see the location address to confirm the redeem offers:
 - Current address
 - Street
 - Postal code
 - Zone
- User can also add/edit mobile number
- User will have the list of saved address that they have stored previously. User can also select that address to confirm the location as well instead of entering the new one.
- Saved address list will have following fields:
 - Map view
 - Address

- Distance
 - Radio button
- At a time user can select only one saved address amongst the list.
- When I tap on “Save” button. The selected address (current or saved) should be saved as my delivery location, and I should be returned to the previous screen (e.g., redemption screen).

For business user:

- When business owner will receive the request for redeeming the offer, they will have the user’s location in that page. When business user taps on that location, they will have the map screen that shows the location of customer.

I want to view a map showing the locations of available offers after tapping the map button on the home screen,

So that I can easily find and navigate to nearby businesses with offers.

Acceptance Criteria:

1. Accessing the Map View:

- **Given** I am on the home screen,
#**When** I tap the map button in the header,
#**Then** I should be taken to the map view screen.

2. Map Display:

- **Given** I am on the map view screen,
#**When** the screen loads,
#**Then** I should see a map displaying nearby offer locations with pins, each marked with a rating (e.g., "4.0", "4.7").
- Each pin should have an associated profile image, once I tap on it I will see available offers and visit profile page.

3. Search:

- **Given** I am on the map view screen,
When I view the top section,
Then I should see a search bar with the placeholder "Search Offers, Profile, Business..."
- Whatever I searched previously, it would become the tags and display below the search bar. When I tap on any tag, I can see the searched result on map.
- **When** I tap the search bar and enter a query,
Then the map should update to show only locations matching the search criteria.

4. Offer Card at Bottom:

- **Given** I am on the map view screen,
#When I view the bottom section,
#Then I should see a scrollable list of offer cards, each displaying:
 - The provider name and rating (e.g., "[Redeemplus.shop](#) • 4.8").
 - A "Subscribe" label if applicable.
 - The offer type badge (e.g., "BUY 1, GET 1 FREE").
 - The offer title (e.g., "Iced Spanish Latte").
 - Availability details (e.g., "Available only at Mall of Qatar on Friday...").
 - A "Redeemable in Store Only" label.
 - Distance from my location (e.g., "0.315km").
 - Price details (e.g., "QR 32.50 QR 63.00").
 - A pink "Redeem" button.
- **When** I tap the "Redeem" button on an offer card,
#Then I should be taken to the redemption screen for that offer.

5. Interacting with Map Pins:

- **Given** I am on the map view screen,
#When I tap on a pin (e.g., one with a 4.0 rating),
#Then the map should zoom in on that location, and the offer card at the bottom should update to show the corresponding offer.

I want to access a search page to view my recent searches and recently viewed offers,
So that I can quickly revisit previous searches or offers I've explored.

Acceptance Criteria:

1. Accessing the Search Page:

- Search page can be open from many pages like Home, Offers page.
- There is one unified search box for all pages.

2. Search Bar:

- **Given** I am on the search page, **When** the screen loads, **Then** I should see a back arrow at the top left, the title "Search" at the top, and a search bar with the placeholder "Search...".
- **When** I tap the search bar and start typing, **Then** the app should display matching results.

3. Recent Searches Section:

- The previous searched data will be displayed here as a recent searches. It may be offers or profile name.
- Each entry should have a clock icon to indicate it's a recent search.
- There should be a "Clear All" link in red at the top right of the section.

- **When** I tap "Clear All", **Then** all recent searches should be removed from the list.
- **When** I tap a recent search (e.g., "Golden Sands Retreat"), **Then** the app should display the search results for that query.

4. Recently Viewed Section:

- **Given** I am on the search page,
When I scroll to the "Recently Viewed" section,
Then I should see a list of recently viewed offers, each displaying:
 - The provider name and rating (e.g., "[Redeemplus.shop](#) • 4.8").
 - A "Subscribe" label if applicable.
 - A "100 Left" badge if applicable.
 - The offer type badge (e.g., "BUY 1, GET 1 FREE").
 - The offer title (e.g., "Iced Spanish Latte").
 - Description/subtitle
 - A "Redeemable in Store Only" label.
 - Distance and view count (e.g., "0.315km" and "3,750").
 - Price details (e.g., "QR 32.50 QR 63.00").
 - A pink "Redeem" button.
- **When** I tap the "Redeem" button on a recently viewed offer,
#**Then** I should be taken to the redemption screen for that offer.
- **When** I tap the offer card itself,
#**Then** I should be taken to the offer details screen.

5. Filter screen

- When I tap on filter button from search main screen, I will have filter popup.
- Business Categories: When I am tapping on text box, I would go to "Categories" screen. When I select any category, it will be added in "Business Categories" search box.
 - Note for Dev: Reference the "Categories" screen for the full list of business categories to populate this section.
- Offer Types: User can select offer types for filtering.
 - Multi-select Options:
 1. All Offers
 2. Buy & Get Free
 3. Discount Deal
 4. Package Deal
 5. 24h Deal
 6. Default Selection: All Offers
- Profile Type: User can select profile types for filtering.
 - Multi-select Options:
 1. All Profiles
 2. Bronze Membership
 3. Silver Membership
 4. Gold Membership
 1. UI Note: Add a "Verified" badge next to Gold Membership to make it visually distinct and trustworthy.
- Redeem Method: User can select redeem method for filtering.
 - Multi-select Options:
 1. Redeemable In Store

Delivery Available

Default Selection: None (allow user to select one or both)

Search RedeemPlus Store:

Single Checkbox Option:

Label: "Listed in Redeemplus Store"

Function: Filters results to only show listings within the Redeemplus store.

Clear button: Resets all filter options to default (e.g., "All Offers", "All Profiles", etc.)

Show Result button: Applies selected filters and returns the filtered results.

Description

 - i. If user select yes, then the label will be displayed on offer card.
 - ii. If user select no, then the label will not be displayed on offer card.
 - b. Delivery Fee (e.g., "70.50 QR").
 - i. If user select yes, then the label will be displayed on offer card.
 - ii. If user select no, then the label will not be displayed on offer card.
 - c. Estimated Delivery Time (e.g., "2 hrs 40 mins").
- 8. **General Information:**
 - a. Description (e.g., "A smooth and creamy blend of espresso, chilled milk...").
 - b. Terms of Use (e.g., "Valid on all selected items...").
 - c. Available in Branches (e.g., "Mall of Qatar, City Center Mall").
 - d. Time & Day (e.g., "10:00 to 13:00 PM").
- 9. Offer Location:
 - a. User has to select location from the given map. So user should know on which location this offer will be posted.
 - iv. A confirmation note: "I confirm that this offer complies with my country's laws and is approved by the relevant authority if required".
 - b. **When** I fill out all required fields and tap the "Post Your Offer" button, **Then** the offer should be submitted for posting.

3. Screen 3: Add-on Offer Parameters (Discount Deal)

- a. **Given** I have selected "Discount Deal" as the offer type, **When** I am on the offer parameters screen, **Then** the fields should be the same as in Screen 2, but with the "Offer Type" set to "Discount Deal" and the "Discount %" field enabled for input.
- b. The rest of the functionality (e.g., filling out fields, posting the offer) should be the same as in Screen 2.

4. Posting and Listing:

- a. **Given** I have submitted the offer, **When** I tap "Post Your Offer", **Then** the offer should be posted, and I should see a confirmation (not shown in the image).
- b. The screen should display a "List in RedeemPlus - \$5 Only" button in red, indicating a paid listing option.

- c. **Note: Gold Membership will have an option to list on Redeemplus store free of charge.**

5. Navigation:

- a. **Given** I am on the add offer screens,
When I tap the back arrow,
Then I should be taken to the previous screen.
- b. The bottom navigation bar should remain visible with icons for "Home", "Offers", "Post", "Notification", and "You", with "Post" highlighted as the active tab.

Description

I want to view and manage my profile details,

So that I can keep my account information up-to-date and access my activity history.

Acceptance Criteria:

1. Accessing the Profile Screen:

- a. **Given** I am on the home screen,
When I tap the "You" tab in the bottom navigation bar,
Then I should be taken to the profile screen.

2. Screen 1: Profile (Users)

- a. **Given** I am an individual or business user on the profile screen, **When** the screen loads, **Then** I should see:
 - i. A profile photo (or placeholder), my username (e.g., "Redeemplus")
 - ii. Current active membership name.
 - 1. When user taps on it, they will be navigated to subscription page to see benefit.
 - 2. I should see my current review rating i.g 5.0 stars and when i tap on it, i will be taken to my review page screen as shown in figma design.

3. Also i should see my selected profile category title i.g Official RedeemPlus Store. This is the category title which is added bu the user at signup time.
 - iii. There are some categories for owner profile i.e All, Buy & Get, Discount, Package, 24Hrs, Saved.
 - iv. There should be following count displayed in profile tab:
 1. Number of currently live offers posted by the user
 2. Number of users following or subscribed to this user's offers
 3. Total number of times this user's offers have been claimed or redeemed by others.
 - b. **When** I tap "Edit Profile", I should be taken to a screen to update my profile details.
 - c. **When** I tap on "Contact" button, I can access my added contact.
 - d. **When** I tap on social media buttons, I will go to that link using webview.
 - e. **When** I tap on "Three dot menu" option, I will be navigated user setting page (for owner user profile)
 - f. **When** I tap on share button, I can share the profile via native share sheet/sharing option.
 - g. **When** I tap on contact button, I can see the assigned phone number and can call using native call carrier/provider.
- 3. Screen 2: Profile (Visible to public)**
- **Given** I am an individual or business user on the profile screen, **When** the screen loads, **Then** I should see:
 - A profile photo, business name (e.g., "[Aplus.shop](#)"), and rating (e.g., "4.8").
 - The blue verified badge, now styled similarly to Facebook's verified icon, is exclusively assigned to Gold members, which is why it appears on this simplified screen.
 - A membership title.
 - Allowing anyone to see the user's current membership status. When someone taps the title, they will be directed to the subscription screen. This is intended to increase user awareness and encourage more upgrades.
 - The three-tier colour coding—Bronze, Silver, and Gold—is reflected in the card icon design.
 - There should be following count displayed in profile tab:
 - Number of currently live offers posted by the user
 - Number of users following or subscribed to this user's offers
 - Total number of times this user's offers have been claimed or redeemed by others.
 - There are some categories for profile i.e All, Buy & Get, Discount, Package, 24Hrs.
 - **When** I tap on social media buttons, I will go to that link using webview.
 - **When** I tap on "Three dot menu" option, I will be navigated to report this profile page (for other user profile)
 - **When** I tap on contact button, I can see the assigned phone number and can call using native call carrier/provider.
 - When I tap on subscribe button, I can subscribe to that profile.
- 4. Screen 3: Edit Profile**
- I can edit following details in my profile:

- Profile image: By camera or gallery
- Username: If i tried to edit username and its taken should show username in red and if its available will show on green
- Category: Dropdown
- Phone: Country code and number
- Email
- Date of birth
- My subscription: When user tap on I button, he/she will have popup that shows the detail
- Users can enter their Location, Whatsapp, TikTok and Instagram link.
- User can set their current location.
- **When** I make changes and tap "Submit", my profile should be updated, and I should be taken back to the profile screen.
- When I tap on "Change Password", I will go to change password screen and can change my password
- When I tap on "Delete Account", my account will be deleted successfully.
- 5. **Navigation:**
 - a. **Given** I am on the profile screens,
When I tap the back arrow,
Then I should be taken to the previous screen.
 - b. The bottom navigation bar should remain visible with icons for "Home", "Offers", "Post", "Notification", and "You", with "You" highlighted as the active tab.

As a user, I want the settings page to have an improved layout and additional functionality so that I can easily navigate and manage my account preferences.

Acceptance Criteria:

- **Given** I am on the settings page, **when** I view the "Account" section, **then** the options ("Notifications," "Language") should be clearly separated with consistent spacing and icons.
- **Given** I am on the settings page, **when** I view the "Support & About" section, **then** "My Subscription" and "Terms and Policies" should have clickable links that redirect to the respective pages.
- **Given** I am on the settings page, **when** I view the "Actions" section, **then** "Help & Support," "Report a problem," and "Contact us" should have descriptive subtext to clarify their purpose.
- **Given** I am on the settings page, **when** I view the "Login" section, **then** "Switch Account" and "Log out" should have confirmation prompts to prevent accidental actions.
- **Given** I am on the settings page, **when** I toggle the "Notifications" option, **then** the toggle should clearly indicate the current state (e.g., "ON" in green, "OFF" in gray).

Given I am on the settings page, **when** I select the "Language" option, **then** the current language ("English") should be displayed with an option to change it via a dropdown menu.

As a user, I want the language selection page to be more intuitive and accessible so that I can easily switch between languages and understand the available options.

Acceptance Criteria:

- **Given** I am on the language selection page, **when** I view the list of languages, **then** each language option (e.g., "Arabic (العربية)", "English (English)") should have consistent formatting and spacing.
- **Given** I am on the language selection page, **when** a language is selected (e.g., "English"), **then** the checkmark should be clearly visible in a contrasting color (e.g., green).
- **Given** I am on the language selection page, **when** I select a new language, **then** the app should immediately apply the language change and refresh the UI without requiring a restart.
- **Given** I am on the language selection page, **when** I scroll through the list, **then** the list should support more languages (e.g., add Italian, Chinese, etc.) to accommodate a broader user base.

Given I am on the language selection page, **when** I select a language, **then** a confirmation message should briefly appear (e.g., "Language changed to English") to confirm the action.

Given I am on the language selection page, **when** I view the list, **then** languages should be sorted alphabetically for easier navigation.

As a user, I want the notifications settings page to be more intuitive and customizable so that I can easily manage my notification preferences.

Acceptance Criteria:

- **Given** I am on the notifications settings page, **when** I view the "Common" section, **then** options like "General Notification," "Sound," and "Vibrate" should have descriptive subtext explaining their purpose.
- **Given** I am on the notifications settings page, **when** I toggle any switch (e.g., "Vibrate" currently ON), **then** the toggle should clearly indicate its state (e.g., blue for ON, gray for OFF).
- **Given** I am on the notifications settings page, **when** I view the "System & Services Update" section, **then** options like "App updates," "Delivery Status," "Subscribers," "Redeemed Offers," and "Delivery Request" should be grouped logically with consistent spacing.
- **Given** I am on the notifications settings page, **when** I view the "Others" section, **then** "New Service Available" and "New Tips Available" should allow users to tap for more details (e.g., a preview of what notifications will look like).

Given I am on the notifications settings page, **when** I toggle a notification type, **then** a brief confirmation message should appear (e.g., "Sound notifications turned ON").

Given I am on the notifications settings page, **when** I toggle "General Notification" to OFF, **then** all other toggles should be disabled and grayed out to indicate they are inactive.

As a user, I want the Contact Us page to provide clear and accessible contact options so that I can easily reach support through my preferred channel.

Acceptance Criteria:

- **Given** I am on the Contact Us page, **when** I view the contact options, **then** each option (e.g., "Customer Services," "WhatsApp," "Website," "Facebook," "X (Twitter)," "Instagram") should have a clickable link or button that opens the respective platform or service.
- **Given** I am on the Contact Us page, **when** I tap "Customer Services," **then** it should display a phone number or email address for direct contact.
- **Given** I am on the Contact Us page, **when** I tap "WhatsApp," **then** it should open WhatsApp with a pre-filled message template (e.g., "Hello, I need assistance with...").
- **Given** I am on the Contact Us page, **when** I tap "Website," **then** it should open the company website in the default browser.
- **Given** I am on the Contact Us page, **when** I tap "Facebook," "X (Twitter)," or "Instagram," **then** it should open the respective social media app (if installed) or the browser with the company's official page.

Given I am on the Contact Us page, **when** I view the list, **then** each option should have a brief description (e.g., "WhatsApp: Message us for quick support").

Given I am on the Contact Us page, **when** I tap any contact option, **then** a confirmation message should briefly appear (e.g., "Opening WhatsApp...").

As a user, I want the Report a Problem feature to be more intuitive and supportive so that I can easily report issues and receive timely feedback.

Acceptance Criteria:

- **Given** I am on the Report a Problem page, **when** I view the initial message, **then** the message ("Need Help? Hi there! Noticed something wrong...") should be clear, friendly, and localized based on the user's selected language.
- **Given** I am on the Report a Problem page, **when** I type a message in the input field ("Message..."), **then** the field should support multi-line text and auto-resize as I type.
- **Given** I am on the Report a Problem page, **when** I tap the send button, **then** a confirmation message should appear (e.g., "Your issue has been reported. We'll get back to you soon!").
- **Given** I am on the Report a Problem page, **when** I tap the attachment icon (paperclip), **then** I should be able to upload screenshots or files to better describe the issue.
- **Given** I am on the Report a Problem page, **when** I tap the voice message icon (microphone), **then** I should be able to record a voice message to describe the issue, with a maximum duration of 1 minute.

Given I am on the Report a Problem page, **when** I submit a report, **then** the app should send an automated reply with a ticket number and estimated response time (e.g., "Ticket #1234 - We'll respond within 24 hours").

[DDVXY-85] [Static web views](#) Created: 03/Jun/25 Updated: 03/Jun/25

Description

Maintain a webviews like terms and condition and Help, support etc.

Description

As a user, I want the Edit Profile feature to be more intuitive and secure so that I can easily update my profile information and manage my account settings.

Acceptance Criteria:

- **Given** I am on the Edit Profile page, **when** I tap "Change Profile Photo," **then** I should be able to upload a new photo from my gallery or take a new photo with the camera.
- **Given** I am on the Edit Profile page, **when** I edit the "Username" field ("Redeemplus"), **then** a validation check should ensure the username is unique and meets character requirements (e.g., 3-20 characters, no special symbols).
 - Username can be contain following characters only:
 - Letters: (A-Z, a-z)
 - Numbers: (0-9)
 - Periods: (.)
 - Underscores: (_)
 - No other special characters are allowed.
 - Minimum length should be 3 characters, maximum length should be 20 characters.

- If i tried to edit username and its taken should show username in red and if its available will show on green
- **Given** I am on the Edit Profile page, **when** I select a "Category" ("Local Business"), **then** the dropdown should include additional options (e.g., "Individual," "Enterprise") and display a confirmation message upon selection.
- **Given** I am on the Edit Profile page, **when** I edit the "Phone" field ("+974 66 555 724"), **then** the app should validate the phone number format and display an error if invalid.
- **Given** I am on the Edit Profile page, **when** I tap on "My Subscription" ("Gold Member"), **then** it should display a brief overview of the subscription benefits and an option to upgrade.
 - No Auto Renewal As well. once subscription done, profile will be downgrade to the free version (Bronze)
- **Given** I am on the Edit Profile page, **when** I edit the "Active URL Links" (Maps, WhatsApp, TikTok, Instagram), **then** the app should validate the URLs and display a preview of the link destination.
- **Given** I am on the Edit Profile page, **when** I tap "Confirm your Location," **then** the map should allow me to manually adjust the pin and save the updated location.
- **Given** I am on the Edit Profile page, **when** I tap "Change Password," **then** a secure form should appear requiring the current password, new password, and confirmation, with strength validation.
- **Given** I am on the Edit Profile page, **when** I tap "Delete Account," **then** a confirmation prompt should appear with a warning and a secondary confirmation (e.g., entering the password) to prevent accidental deletion.
- **Given** I am on the Edit Profile page, **when** I tap "Apply" or "Submit," **then** a success message should appear (e.g., "Profile updated successfully").

Description

As a user, I want the Notification Page to provide clearer membership insights and more actionable notifications so that I can easily track my benefits and engage with new offers.

Acceptance Criteria:

- **Given** I am on the Notification Page, **when** I view the membership section ("Bronze Membership"), **then** the "Remaining Offers: 25 Offers" and "Validity: 1-Year" should be prominently displayed with a progress bar showing usage (e.g., 25/50 offers used). It is based on client logic
- **Given** I am on the Notification Page, **when** I tap "Upgrade Now," **then** a modal should appear detailing the benefits of the next tier ("Silver") and a button to proceed with the upgrade.
- **Given** I am on the Notification Page, **when** I view the financial stats.
 - Total Saving
 - Total Earning
 - My Redeem

Given I am on the Notification Page, **when** I tap on a tab ("All," "Offer Redeemed," "New Subscribers," "Delivery Request"), **then** the selected tab should be highlighted, and the content below should update accordingly.

When I tap on notification, I can see the profile of user who redeem the offer.

Given I am on the Notification Page, **when** I tap "Accept Delivery" on a notification (e.g., "24Hrs Deal 7 Cafe +QR 150.50"), **then** a confirmation prompt should appear (e.g., "Are you sure you want to accept this delivery?").

Given I am on the Notification Page, **when** I view a "New Subscribers" notification (e.g., "Eco.Company Local Business"), **then** tapping it should take me to the subscriber's profile page.

Description I will have upgrade now option, at the top of the page. When I tap on it, I will go to subscription plan page.

- I will have the count (“13”) of offers that I have posted and remaining offers count (37).
- I will have sponser offers in horizontally scrolling (The slide show of those offers listed on RedeemPlus store which they have paid the 5\$).
- I will have search bar and map button.
 - When I tap on search bar, I will go to search page where I can search offers and user.
 - When I tap on map button, I will go to map screen.
- I will have categories like “Buy 1 get 1 free”, “Discount deal“, “Package deal“, “24 hours deal.
- When user tap on any category they will have the offers of that categories.
- I view the "Redeemplus" profile section, **then** it should display the same stats (e.g., "52.1K," "16.2K," "726 Redeemed") and buttons ("Subscribed," "Contact") in both views with consistent styling.
- User can do subscribe, and contact to R+ shop.
- If user already subscribed, then “Subscribed” label will be shown with heart icon.

I view the page in either view, **then** the filter tabs ("All," "Buy & Get Free," "Discount," "Package," "24 Hrs Deals") should be scrollable horizontally and highlight the selected tab with a consistent design.

I can view all the offers list.

I can Save the offer and can open the option by tapping on 3 dots menu.

I use the "Sort" or "Filter" options, **then** the results should update dynamically, and the selected sort/filter should be clearly indicated (e.g., "Sort: Rating 4.5+").

When user tap on “Redeem” button from the list, they will move to redeem request screen.

As a user, I want the Offers Page to have enhanced sorting and filtering options so that I can easily find the most relevant offers based on my preferences.

Acceptance Criteria:

- **Given** I am on the Offers Page, **when** I tap the "Sort" button, **then** the sort modal should display options ("Lowest Price First," "Highest Price First," "Near By," "Redeemable In Store Only," "Delivery Available") with the currently selected option checked (e.g., "Lowest Price First").
- **Given** I am on the Offers Page, **when** I tap the "Filter" button, **then** the filter modal should display rating options ("Top Rated 4.0 – 5.0," "Moderate Rated 3.0 – 3.9," "Low Rated 1.0 – 2.9") with the ability to select multiple options.
- **Given** I am on the Offers Page, **when** I apply a sort option (e.g., "Near By"), **then** the offer list should update dynamically, and the sort button should display the selected option (e.g., "Sort: Near By").
- **Given** I am on the Offers Page, **when** I apply a rating filter (e.g., "Top Rated 4.0 – 5.0"), **then** the offer list should update to show only offers within the selected rating range, and the filter button should indicate the applied filter (e.g., "Filter: Top Rated").

Given I am on the Offers Page, **when** I tap "Complete" in the sort or filter modal, **then** the modal should close and selected filter will be applied.

Given I am on the Offers Page, **when** I apply both sort and filter options, **then** the offer list should reflect both criteria (e.g., Top Rated offers sorted by proximity), and the UI should clearly indicate both applied settings.

Given I am on the Offers Page, **when** no offers match the applied filter, **then** a message should display (e.g., "No offers found. Try adjusting your filters.").

When user tap on "filter" button, they will have the category filter screen.

[DDVXY-105] [Offer three dots menu](#) Created: 11/Jun/25 Updated: 11/Jun/25

As a user, I want the Offer Edit Post Popup to display options relevant to my role (business owner or customer) so that I can manage or interact with offers appropriately.

Acceptance Criteria:

- **Given** I am a business owner who posted the offer, **when** I tap the three-dot menu on the Offer Page, **then** the popup should display the following options: "Edit Offer," "Delete Offer," "Share Offer," and "List in RedeemPlus Store – \$5" (only if the offer hasn't been listed yet).
- **Given** I am a business owner, **when** I tap "List in RedeemPlus Store – \$5," **then** a confirmation prompt should appear (e.g., "List this offer in RedeemPlus Store for \$5?"), and upon confirmation, the option should disappear from the popup.
- **Given** I am a business owner, **when** I tap "Delete Offer," **then** a confirmation prompt should appear (e.g., "Are you sure you want to delete this offer? This action cannot be undone.") before the offer is removed.
- **Given** I am a customer, **when** I tap the three-dot menu on the Offer Page, **then** the popup should display the following options: "Share Offer," "Unsubscribe," and "Report This Offer."
- **Given** I am a customer, **when** I tap "Report This Offer," **then** a form should appear allowing me to select a reason (e.g., "Inappropriate Content," "False Information") and submit a report.
- **Given** I am either a business owner or customer, **when** I tap "Share Offer," **then** a share sheet should appear with options to share via social media, messaging apps, or copy the link.
- **Given** I am a customer, **when** I tap "Unsubscribe," **then** a confirmation prompt should appear (e.g., "Are you sure you want to unsubscribe from [Redeemplus.shop](#)?"), and upon confirmation, I should no longer receive updates from this business.

[DDVXY-109] [Report the user](#) Created: 13/Jun/25 Updated: 13/Jun/25

Description	
-------------	--

As a user, I want the Report This Profile feature to be more intuitive and provide better feedback collection so that I can effectively report problematic profiles and provide detailed information.

Acceptance Criteria:

- **Given** I am on the Report This Profile page, **when** I view the "Select Reason" section, **then** the list of reasons ("Fake or misleading account," "Inappropriate profile image,"

"Harassment or abuse," "Spam or scam," "Impersonation," "Offensive language," "Other") should allow only one selection at a time, with the selected reason marked by a green checkmark.

- **Given** I am on the Report This Profile page, **when** I select the "Other" reason, **then** the "Additional Details" text box should become mandatory, and a prompt should appear (e.g., "Please describe the issue in detail").
- **Given** I am on the Report This Profile page, **when** I tap "Send Report" without selecting a reason, **then** an error message should appear (e.g., "Please select a reason for reporting this profile").
- **Given** I am on the Report This Profile page, **when** I successfully submit a report, **then** a confirmation message should appear (e.g., "Thank you! Your report has been submitted. We'll review it soon."), and the page should close.
- **Given** I am on the Report This Profile page, **when** I tap the back arrow or "X" to close the page, current page will be closed.
- **Given** I am on the Report This Profile page, **when** I submit a report, **then** the necessary API will be called.

Description	
-------------	--

As a user, I want the offer interaction workflow to provide role-specific actions and a seamless reporting process so that I can manage or report offers based on my role (business owner or customer).

Acceptance Criteria:

- **Given** I am a offer owner who posted the offer, **when** I tap the three-dot menu on an offer, **then** the popup should display the following options: "Edit Offer," "Delete Offer," "Share Offer," and "List in RedeemPlus Store – \$5".

- **Given** I am a other user, **when** I tap the three-dot menu on an offer, **then** the popup should display the following options: "Share Offer," "Unsubscribe," and "Report This Offer".
- **When** I tap on "Edit offer," **then** the edit offer page should appear.
- **Given** I am a offer owner, **when** I tap "Delete Offer," **then** a confirmation prompt should appear (e.g., "Are you sure you want to delete this offer? This action cannot be undone.") before the offer is removed.
- **Given** I am a other user, **when** I tap "Report This Offer," **then** the Report This Offer page should appear.
- **Given** I am on the Report This Offer page, **when** I select a reason and tap "Send Report," **then** a confirmation message should appear (e.g., "Thank you! Your report has been submitted. We'll review it soon."), and the page should close.
- **When** I tap "Share Offer," **then** a native share sheet should appear.
- **Given** I am a other user, **when** I tap "Unsubscribe," **then** a confirmation prompt should appear (e.g., "Are you sure you want to unsubscribe from [Redeemplus.shop](#)?"), and upon confirmation, I should no longer receive updates from this business.

[DDVXY-117] [Edit Offer](#) Created: 13/Jun/25 Updated: 13/Jun/25

Description	
-------------	--

Description:

As a business owner, I want the Edit Your Offer feature to be more intuitive and include proper validation so that I can easily update my offer details accurately and efficiently.

Acceptance Criteria:

- **Given** I am on the Edit Your Offer page, **when** I tap the offer image, **then** I should be able to upload a new image from my gallery or take a new photo with the camera.
- **Given** I am on the Edit Your Offer page, **when** I tap "Update Your Offer," **then** both confirmation checkboxes ("I confirm details are correct" and "I confirm compliance with country laws") must be checked, or an error message should appear (e.g., "Please confirm all details and compliance").
- **Given** I am on the Edit Your Offer page, **when** I successfully submit the updated offer, **then** a confirmation message should appear (e.g., "Offer updated successfully!"), and the page should close.
- All faded color written in this page are unchangable by user.
- Price once assign can't be changed.
- Selection of redeem in shop can't be changed to avoid issue with customer who already on site. He can change the pincode.
- User can't change the location.
